

Is Your Organization Ready For Scrum?

Does everyone involved understand...

- The roles, rules, artifacts, and time-boxes of Scrum?
- The purposes of these and the consequences of their omission?
- Typical challenges in implementing Scrum and how to address them?

Do developers in particular understand...

- How to work as part of a cross-functional, self-organizing team?
- Modern engineering practices like acceptance test-driven development?
- How to build a "done" increment within an iteration?

Use Scrum.org Assessments To Measure Understanding Of Scrum

Understanding Of Scrum

- ▶ Scrum Open (Fundamental)
- ▶ Professional Scrum Master I (Intermediate)
- ▶ Professional Scrum Master II (Advanced)

Understanding Of Scrum Development

- ▶ Professional Scrum Developer Java
- ▶ Professional Scrum Developer .NET

A Credible Standard

- Grounded in the "Scrum Body Of Knowledge" written by Scrum co-creators
- Taken thousands of times, enabling benchmarking across a large sample
- Supported by a community of certified trainers and leading to industry-recognized certifications

Based On A Rigorous Examination

- Built with formal input from industry experts, informal input from the larger Scrum community
- Launched after months of large-scale beta testing
- Verified by ongoing examination of assessment results to ensure continued integrity of exams

What Is Scrum.org?

Scrum.org improves the software development profession by:

Maintaining Scrum. Creating and maintaining bodies of knowledge that serve as definitive reference points and groundwork for training and assessments.

Offering training. Working with experts in various fields in software development to create and deliver courses that meet the needs of the profession. Continuously monitoring quality.

Assessing knowledge. Offering rigorous assessments to allow people to evaluate their abilities and enable them to improve.

Scrum.org ensures the quality and consistency of its training and certification programs through rigorous monitoring of materials, trainers, and students.

How Do I Get Started?

- Visit www.scrum.org to get acquainted with our assessment programs
- Pilot assessments with your novice, intermediate, and expert Scrum practitioners
- Consider using our assessments as an input when:
 - ▶ Determining training needs
 - ▶ Making staffing decisions
 - ▶ Selecting service providers
- Contact support@scrum.org to discuss your options for broader use of Scrum.org assessments
